MR. AMIT MORYA, PROGRAMME  
MANAGER, GOOGLE LLC

Dear Sir,

The Ministry of Road and Transportation Development of Mongolia is collaborating with Mr. Natsagdorj, Director of ETECH LLC, on a project aimed at capturing 360-degree photos of road checkpoints, signage, tourism attractions, historical monuments, museums, local businesses, hotels, restaurants, hospitals, pharmacies, car repair centers, and other service facilities across the KHOVD and BAYANULGII provinces in western Mongolia, covering approximately 5,000 kilometers.

In recent years, Mongolia has emerged as one of the most appealing destinations for international travelers. However, comprehensive information for tourists is still unknown across the country. Therefore, we are collecting and registering all relevant details for the western provinces of Mongolia on Google Maps, a widely recognized and user-friendly platform globally.

We kindly request your approval for the utilization of Google equipment in support of this aforementioned project.

Thank you for your consideration.

Sincerely,

MR. BATBOLD, S  
STATE SECRETARY,  
MINISTRY OF ROAD AND TRANSPORT  
DEVELOPMENT, MONGOLIA
